LAND GORILLA

Inspections

The fastest and safest method of inspecting properties

Tech-enabled inspection reporting delivered in real-time.

Overview

At Land Gorilla, we are empowering construction lenders one inspection at a time.

Land Gorilla's technology connects our nationwide network of 11,000 inspection companies and independent field inspectors to your projects.

Our process expedites scheduling and delivery for field inspections and provides the speed your customers will appreciate.

A comprehensive set of project photos and field notes are included in each report and is reviewed by our team for quality and accuracy.

90-Minute Scheduling

98% of inspections are scheduled within 90 minutes of the customer request.

3-Hour Delivery

95% of inspections are delivered from the field within 3 hours of the scheduled inspection.

National Coverage

Over 11,000 inspection companies available nationwide
