

# THE REAL DRAW PROCESS TIMELINE

Do you know how long it really takes to process a draw?

How long you think it takes with a perfectly tuned manual draw process:

How long it really takes:

**13 DAYS**

Thirteen days represents the true timeline when the manual process works seamlessly. However, the average experience is far from ideal, and delays are common.

So how long does it really take for a contractor to receive payment?

**ON AVERAGE IT TAKES**

**83 DAYS**

for a contractor to receive payment
